

AMPEX NEWS RELEASE

Ampex Data Systems to Supply Radiation Tolerant TS540 Recorder for Dream Chaser® Spacecraft

Hayward, CA October, 2017-

[Ampex Data Systems](#), a Delta Information Systems Company, announced today that it has been awarded a contract from Sierra Nevada Corporation (SNC). Ampex will provide a flight Multifunction Data Recorder (MDR) for the Dream Chaser spacecraft cargo system. Ampex will also supply multiple [TuffServ TS540](#) NAS-CH 10/11 Recorders and multi-terabyte memory storage systems.

The Model TS540 unit is a Radiation Tolerant, enhanced solid state recorder to be used for on-board recording during the Dream Chaser spacecraft's voyage to and from the International Space Station. Additionally, the Model TS540 will utilize ACCE (Ampex Common Compute

Environment) NAS Software and GUI interfaces, common to all TuffServ Airborne NAS Products. The TS540 offers a very small 105 cubic inch size and weight of less than 10lbs with a powerful compute engine, making it ideal as an exceptional COTS system solution.

"This contract is part of an on-going revitalization of the Ampex Data Systems family of

airborne mission support and collection solutions," stated Jim Orahood, Vice President/General Manager of Ampex Data Systems. "We are proud to have been selected for SNC's key program and look forward to our continued success in supporting SNC in this multi-year effort."

ABOUT AMPEX DATA SYSTEMS

Ampex Data Systems Corporation, a wholly owned subsidiary of Delta Information Systems, Inc., is a Silicon Valley based small business that specializes in cost-effective data recording, on-board storage, cybersecurity, data management, machine learning and other associated technologies.
